EXAMPLE:

You bring in 8 books:

Cover price totaling **\$55.92** x **70%** = **39.14** trade credits

You buy 6 books:

Cover price totaling **\$35.95** minus **35.95**

= **3.19** left-over credits for your Trade Credit Card

Your Cost: 35.95

X 30%

10.79 ---- **your cost**, plus tax, for **6** books!!

(Plus **\$3.19** trade credit card to use toward next purchase.)
